

Collaborative Decision Making Network (CDMNet)

LEAD AGENCY/POINT OF CONTACT: Federal Aviation Administration (FAA)/James Wetherly, AUA-700, 703-326-3841, james.wetherly@faa.gov

TRAINING POINT OF CONTACT: Kevin Browne, FAA/ARS-100, (202) 385-7706, kevin.browne@faa.gov

PROGRAM/PROJECT DESCRIPTION: A communications data link which disseminates operational weather information (e.g. convective weather forecasts) between FAA and the National Airspace System users for traffic flow management. It improves dissemination of weather information to aviation users and air traffic management and fosters collaborative decision making for operations in the national air space. This program is transparent to operational weather users and providers and therefore **no formal training** is provided to them.
